

OCEAN REEF
RENEWABLE ENERGY
A ZENITH ENERGY COMPANY

Ocean Reef Renewable Energy

Ocean Reef Renewable Energy (also known as ORRE) is both the **Distributor and Retailer of electricity** for the Ocean Reef Marina.

The way Builders, Electrical Contractors and Customers open an **electricity account** and **connect to power** (in Ocean Reef Marina) is different. You **don't** need to go through Synergy and Western Power; you go directly to ORRE.

And because ORRE does it all, **the process is actually a lot easier!**

Let's take a look...

STEP

1

“I am about to build”

TEMPORARY POWER SUPPLY

In order to build your new Home or Premise, your Builder and Electrical Contractor will require Temporary Power Supply.

You will need to complete a Temporary Power Supply Application through our website under either the Residential or Business menu.

By completing this Application, you are requesting to open an electricity account with ORRE, and have temporary power installed.

STEP

2

“I have finished building”

PERMANENT POWER SUPPLY

When your Home/Premise has been built, you will need to establish your Permanent Power Supply.

You will need to complete a Permanent Power Supply Application through our website under either the Residential or Business menu. By completing this Application, you are requesting to have permanent power installed.

You will also need to complete a Move In Form as well to open an electricity account for the permanent connection. If you have an existing account this will trigger an account update.

“What happens after I submit my Application?”

1. **CONFIRMATION:** You will receive an **Application Received** confirmation email within 3 business days of submitting your Application.
2. **INVOICING:** For **standard Residential** connections a **Connection Invoice** will be issued. This is the cost of your Power Supply connection. If you have a **Non-Standard or Business** connection, you will receive a **Design Fee Invoice before proceeding to a Connection Invoice**. *Note: In order to progress with your Application, full payment of the invoice(s) is required.*
3. **NOTICE OF COMPLETION:** Once payment has been received, we check that your Electrical Contractor has submitted their **Notice of Completion** to us. *Note: In order to progress with your Application, the Notice of Completion is required.*
4. **APPLICATION APPROVED:** You will receive an **Application Approved** confirmation email advising that we are commencing connection activities.
5. **CONNECTION ACTIVITIES:** Your Power Supply connection is now being actioned. This process takes anywhere between **4 to 8 weeks** to complete.
6. **APPLICATION COMPLETED:** You will receive an **Application Completed** confirmation email advising that your property is now connected.
7. **ORRE ELECTRICITY ACCOUNT ACTIVATED:** Your ORRE electricity account will now be **opened and activated**. You will receive your **Account Confirmation** email and **Introduction Pack** within 5 business days.
